For a Better Future of Work: Pathways for Action

- 29th September 2017
1. We, the G7 Ministers of Labour and Employment, met in Turin on 29 and 30 September to further advance our co-operation in addressing changes in the world of work, promoting sound and effective policies to boost the quality and quantity of jobs and fostering inclusive labour markets and societies.
  2. Our discussion builds upon the "G7 People-Centred Action Plan on Innovation, Skills and Labour" and the "G7 Roadmap for a Gender-Responsive Economic Environment" adopted by our leaders in Taormina. In addition, our discussion was informed by the San Paolo Agenda to foster inclusive growth agreed to by the G7 Finance Ministers and Central Bank Governors.
  3. Our labour markets are undergoing major transformations driven by globalisation, automation, digitalisation, demographic changes and international migration. We recognise the importance of adopting policies that promote dynamic and resilient
